Rediscover effortless hearing

Life does not pause for quiet. Conversations overlap. Noise comes and goes. Jabra Enhance Pro Clear is designed for that reality.

Intelligent All-Around, the newest technology by Jabra, combines the power of **AcoustIQ, Clear Focus and DNN Denoising** to automatically adapt as your listening environment changes, delivering clearer conversations with less listening effort.

AcoustIQ

It senses

Uses real-time sound recognition to accurately identify the listening environment[1] and automatically adjust the hearing aid settings for optimal performance.

Clear Focus

It focuses

With Clear Focus, a four-microphone beamformer brings the voices you want to hear to the forefront while reducing surrounding noise so you can stay focused on what matters.[2]

DNN Denoising

It calms

Powered by AI, it automatically reduces distracting background noise as it builds, so listening feels more comfortable and less tiring.

Small size - no compromises
Smallest AI hearing aid by Jabra

All-day battery life
with up to 30 hours[3]

All-weatherproof
IP68-rated protection

Support every step of the way

Conveniently connect with your Costco Hearing Care Professional wherever you are.

1. Scan to check device compatibility, then download the Jabra Enhance Pro app.
2. Pair your Jabra hearing aids to your compatible device.
3. Connect with your hearing care professional in the app via:
   - **Live Assist:** Real-time video appointments from anywhere.
   - **Remote Fine-tuning:** Request adjustments to optimize your hearing aid settings remotely.
